

Partner Organization Benefits Guide

The Michigan Cancer Consortium (MCC) aims to unify public and private organizations to reduce the burden of cancer for all people by addressing health disparities through a commitment to collaborate, practice evidence-based interventions, and improve quality of care. In alignment with this mission, the MCC is working toward building partnerships with organizations such as yours to reach their mission. The MCC is extending a unique opportunity to partner because of the work your organization is doing and the population(s) being served. Partnering with the MCC is different than being an MCC member organization as there are no member engagement requirements for partnering with the MCC. Below are some of the benefits of forming an organizational partnership with the MCC:

- ❖ Networking/Collaboration opportunities
 - Access to cancer expertise
 - Attend MCC Board of Directors meeting (in person or webcast)
 - Attend MCC Annual Meeting
 - Access to and participation on the MCC Speakers Bureau
 - Access to health equity data
 - Participate in MCC workgroups and or committees
 - Present your organization's initiatives as related to health/wellness or health disparities

- ❖ Resources for preventive cancer screening for your clients
 - Breast and Cervical Cancer Control Navigation Program
 - Breast Density Fact Sheet
 - Michigan Colorectal Cancer Early Detection Program
 - Lung Cancer Screening

- ❖ Access to financial navigation for cancer treatment for your clients

- ❖ Connect with Clinical Trial Programs/Opportunities in Michigan

- ❖ Access to health and wellness resources
 - Cancer information in general
 - Smoking cessation
 - Healthy lifestyles
 - Immunization
 - Cancer Survivorship
 - Stanford University's Chronic Disease Self-Management Program (CDSMP) and Pain CDSMP
 - Powerful Tools for Caregivers program
 - Enhance Fitness
 - Nutritional information and cooking classes
 - MCC Tools of the Month
 - MCC Update (produced monthly)

- ❖ Ongoing educational opportunities
